Northstar Drive Reconstruction & Overlay Project

Current News (Friday, Oct. 8, 2010): The paving is complete. The only remaining work left in the contract includes replacement of curbing, raising utilities to the new road's surface, and compacting road shoulders. We don't expect significant traffic delays to result from this work.

The Highlands View Road Detour is closed.

Project Information

Location: Northstar Drive and Big Springs Drive
Completion Date: October 15, 2010
Contact Info: Eric Martin / Mike Geary – (530) 562-0747
Contractor: Teichert Construction

Project Description

Reconstruction includes the pulverization and overlay of approximately 300,000-ft² of Northstar Drive between the Recycling Area and the auto-drop in the Village. The lower portion of Big Springs Drive between Northstar Dr. and Martis Landing will be reconstructed as well.

The project also includes restoration of surface utilities in the roadway, installation of approximately 7,200-ft of AC curb, and 6,200-ft of aggregate-base road shoulder. Placer County installed drainage improvements in July.

The section of Northstar Drive between Hwy. 267 and the Recycling Area is scheduled for reconstruction in 2011 and will include improvements to the Roundabout.

Traffic Delays

Northstar Drive will have traffic control and be passable with one-lane open. The NCSD will strive to minimize delays and appreciates your patience during this project.
